SOLARWORLD SUNMODULES – THE WORLD'S MOST RELIABLE SOLAR PANELS

With nearly a half century of experience in manufacturing, we are able to produce the highest-quality solar panels in the industry. Now we are bringing industry-leading products and protection together with the SolarWorld Assurance™ warranty program. As the only major solar panel manufacturer with products in operation longer than their original warranty, you can have confidence that your SolarWorld purchase will perform as promised.

¹ During the introductory period, there are no premiums or deductibles for SolarWorld solar panels installed beginning January 2017. For installations prior to that date, see the Extend Warranty™ plan for details.

² For systems 3 to 20 kilowatts

³ If the original warranty can no longer be supported, 15 years of coverage begins immediately.
